## ORACLE OPERATING SYSTEMS, VM AND INTEGRATED SOFTWARE OPTIONS

Maximize your support investment and unlock the full value of your Oracle products with the industry's leading support. Predictable, flexible and the most comprehensive coverage available, Oracle support helps drive your business success across your entire technology environment, from database to middleware and to applications. Also covered are hardware (including integrated software and integrated software options) and operating systems. Complete coverage—an industry first—only from Oracle. With Oracle support, you'll enjoy continued peace of mind, knowing that we'll always be there to support your business.

### ORACLE SUPPORT PROGRAMS AND SERVICE LEVELS

Oracle support helps puts you in control of your IT planning and budgeting while positioning you to take advantage of Oracle's technology leadership. To that end, Oracle offers the following support programs that span three levels of support including Premier, Extended and Sustaining Support:

- Oracle Premier Support for Systems
- Oracle Premier Support for Operating Systems
- Oracle Communications Network Premier Support
- Oracle Communications EAGLE Premier Support
- Extended Support for Operating Systems
- Sustaining Support for Operating Systems and Integrated Software Options
- Oracle Communications Network Sustaining Support
- Oracle Communications EAGLE Sustaining Support

#### Oracle Premier Support for Systems

For over two decades, Oracle has set new standards of performance. By choosing Oracle Premier Support for Systems, you can place your trust in a recognized leader to keep your systems running smoothly while you focus on your business goals.

Oracle Premier Support for Systems consists of services in support of hardware systems, operating system software and integrated software (including integrated software options). For hardware systems, this support is limited to (i) server and storage hardware, and (ii) Tekelec BNS, PIC hardware and Oracle Acme Packet 1100, 3820, 3900 and 3950 hardware. For Oracle servers, this support applies to the following software: Oracle Solaris, Oracle Linux, and Oracle VM. For Tekelec BNS and PIC hardware, this support applies to the operating system software included with the hardware system.

Support for integrated software options is typically available for five years from the date a release of the integrated software option becomes generally available (similar to Oracle applications). For operating systems, Oracle Premier Support provides a minimum ten-year support period and for selected releases, Oracle may extend the technical support period by offering an additional three years of Extended Support and/or indefinite Sustaining Support. Availability and actual timeframes are noted below in the Support Timeframe tables.

Unless otherwise stated in this section, Oracle Premier Support for Systems consists of the following software deliverables. For details on the hardware deliverables, please refer to the appropriate datasheets and support policy documents located at [www.oracle.com](http://www.oracle.com).

- Program updates, fixes, security patches and security alerts for operating system software and integrated software
- Critical patch updates for Oracle Solaris operating system software
- Upgrade tools/scripts

- Certification with most new third-party products/versions and most new Oracle products
- Major product and technology releases for operating system software and integrated software (including integrated software options) which may include general maintenance releases, selected functionality releases and documentation updates
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems) including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Access to certain Oracle Linux security patches that may be applied while your hardware system is operating and do not require a system reboot
- Hardware certification
- Backport of selected fixes for Oracle Linux
- Right to use Oracle Enterprise Manager Ops Center
- Access to Platinum Services

### **Oracle Premier Support for Operating Systems**

Your investment in Oracle Linux, Oracle Solaris and Oracle VM enables you to handle the most demanding IT applications with world record performance. Now protect your technology investment and keep your business operations running effectively and efficiently with Oracle Premier Support for Operating Systems.

If you are running any combination of these products on your systems and you have opted not to purchase complete system coverage (e.g., Premier Support for Systems or Oracle Communications Network Premier Support), this is the support offering for you.

Oracle Premier Support for Operating Systems consists of services in support of (i) Oracle Linux, Oracle Solaris, Oracle VM and (ii) integrated software (including integrated software options). Unless otherwise noted in this section, Oracle Premier Support for Operating Systems consists of:

- Program updates, fixes, security patches and security alerts for operating system software and integrated software
- Critical patch updates for Oracle Solaris operating system software
- Major product and technology releases for operating system software and integrated software (including integrated software options) which may include general maintenance releases, selected functionality releases and documentation updates
- Upgrade tools/scripts
- Certification with most new third-party products/versions and most new Oracle products
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems) including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Access to certain Oracle Linux security patches that may be applied while your hardware system is operating and do not require a system reboot
- Hardware certification
- Backport of selected fixes for Oracle Linux
- Right to use Oracle Enterprise Manager Ops Center

## Extended Support for Operating Systems

For selected Oracle Linux, Oracle Solaris and Oracle VM operating system releases, Oracle may extend the technical support period by offering Extended Support for a three-year period. With Extended Support, you receive access to technical experts, backed by industry leading online tools and knowledgebase resources. When offered, Extended Support will consist of the following:

- Program updates, fixes, security patches, security alerts and critical patch updates for Oracle Solaris operating system software
- Access to Oracle Linux operating system patches and fixes for critical security errata and select high-impact critical bug fixes
- Access to certain Oracle Linux security patches that may be applied while your hardware system is operating and do not require a system reboot
- Access to Oracle VM software patches and fixes for critical security errata and select high-impact critical bug fixes
- Major product and technology releases for operating system software and integrated software (including integrated software options) which may include general maintenance releases, selected functionality releases and documentation updates.
- Upgrade tools/scripts
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support system) including the ability to log service requests online
- 24 x 7 access to Oracle Unbreakable Linux Network
- Right to use Oracle Enterprise Manager Ops Center

Extended Support for Operating Systems does not include:

- Certification with most new third-party products/versions or most new Oracle programs
- Hardware certification
- Backport of fixes for Oracle Linux programs

## Sustaining Support for Operating Systems and Integrated Software Options

For selected operating systems or integrated software options, Oracle may offer Sustaining Support for an indefinite period. Sustaining Support applies after Extended Support expires or should you not purchase Extended Support, immediately after Premier expires. With Sustaining Support, you receive continued access to technical experts, backed by industry leading online tools and knowledgebase resources. You benefit from:

- Pre-existing program updates, fixes, security patches and security alerts for operating system software, integrated software and integrated software option software
- Pre-existing critical patch updates for Oracle Solaris operating system and integrated software option software
- Access to pre-existing Oracle Linux operating system patches and fixes for critical security errata and select high-impact critical bug fixes
- Access to pre-existing Oracle VM software patches and fixes for critical security errata and select high-impact critical bug fixes
- Pre-existing upgrade tools/scripts
- Major product and technology releases for integrated integrated software options, which may include general maintenance releases, selected functionality releases and documentation updates
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems) including the ability to log service requests online
- 24x7 access to Oracle Unbreakable Linux Network
- Right to use Oracle Enterprise Manager Ops Center

Sustaining Support for Operating Systems and Integrated Software Options does not include:

- New program updates, fixes, security patches, security alerts, critical patch updates, general maintenance releases, selected functionality releases, documentation updates or upgrade tools/scripts
- Certification with most new third-party products/versions or most new Oracle products
- 24 hour commitment and response guidelines for Severity 1 service requests
- Hardware certification
- Backport of fixes
- Previously released fixes or updates that Oracle no longer supports

### **Oracle Communications Network Premier and Sustaining Support**

Oracle Communications Network Premier Support consists of services in support of hardware systems and integrated software (including integrated software options) for (i) Oracle Communications EAGLE hardware products, (ii) Oracle Acme Packet hardware products except as otherwise noted, and (iii) Oracle Communications TDM support PCIe Card Low Profile. The following products are excluded and not eligible for Oracle Communications Network Premier Support: Oracle Acme Packet 1100, 3820, 3900, and 3950 hardware products, Oracle Enterprise Session Border Controller integrated software, Oracle Communications Applications Session Border Controller integrated software and Oracle Enterprise Communications Broker integrated software.

Oracle Communications Network Premier Support consists of:

- Program updates, fixes and security alerts for integrated software (including integrated software options)
- Remote installation of integrated software (including integrated software options) for Oracle Communications EAGLE hardware

- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems) including the ability to log service requests online
- Enhanced response, restoration and resolution timeframes

Certain Oracle Communications Network Premier integrated software option program releases may be eligible to receive Oracle Communications Network Sustaining Support. If offered, support consists of:

- Program updates, fixes, security alerts and critical patch updates for integrated software options created during the Premier Support period
- Remote installation of integrated software options for Oracle Communications EAGLE hardware
- Major product and technology releases for integrated software options, which may include general maintenance releases, selected functionality releases and documentation updates
- Assistance with service requests 24 hours per day, 7 days a week
- Access to My Oracle Support (24 x 7 web-based customer support systems) including the ability to log service requests online

Sustaining Support for the Oracle Communications Network Premier integrated software option program releases does not include:

- New program updates, fixes, security alerts, and critical patch updates
- Enhanced response, restoration and resolution timeframes
- Previously released fixes or updates that Oracle no longer supports

## Oracle Communications EAGLE Premier and Sustaining Support

Oracle Communications EAGLE Premier Support consists of services in support of hardware systems and integrated software (including integrated software options) for Oracle Communications EAGLE hardware products only. Effective July 7, 2015, Oracle Communications EAGLE Premier Support is no longer available with new first year license and technical support orders. If you are currently under an active support contract for Oracle Communications EAGLE Premier Support then you may continue to renew Oracle Communications EAGLE Premier Support.

Oracle Communications EAGLE Premier Support consists of:

- Program updates, fixes and security alerts for integrated software (including integrated software options)
- Remote installation of integrated software (including integrated software options)

## SUPPORT TIMEFRAMES – OPERATING SYSTEM RELEASES

### Oracle Solaris

Release	GA Date	Premier Support Ends	Extended Support Ends	Sustaining Support Ends
Solaris 8 <sup>5</sup>	Feb 2000	Mar 2009	Mar 2012	Indefinite
Trusted Solaris 8.x <sup>1</sup>	Sep 2002	Mar 2012	Not Available	Indefinite
Solaris 9	Mar 2002	Oct 2011	Oct 2014	Indefinite
Solaris Legacy Containers <sup>3</sup>	Dec 2010	Jan 2018	Jan 2024	Indefinite
Solaris 10 <sup>2,4</sup>	Jan 2005	Jan 2018	Jan 2027	Indefinite
Solaris 10 Containers	Mar 2020	Jan 2027	Not Available	Indefinite
Solaris 11.3 <sup>2,4,6</sup>	Oct 2015	Jan 2021	Jan 2027	Indefinite
Solaris 11.4 <sup>2,4,7</sup>	Aug 2018	Nov 2031	Nov 2037	Indefinite

<sup>1</sup>Trusted Solaris 8.x has been superseded by Solaris 10 11/06 with Trusted Extensions and subsequent releases of Solaris 10 with Trusted Extensions. For more details, please see the Common Criteria Evaluated Oracle Products website located at <http://www.oracle.com/technetwork/topics/security/oracle-cc-evalsolaris-083233.html>.

<sup>2</sup>With the release of Oracle VM Server for SPARC 2.0 (LDoms), this product will follow the lifecycle of the hardware platform.

<sup>3</sup>Oracle Solaris Legacy Containers includes both Oracle Solaris 8 Containers and Oracle Solaris 9 Containers.

<sup>4</sup>For more detailed information on Free and Open Source Software (FOSS) Support in Oracle Solaris, please see associated policy at <https://support.oracle.com/CSP/main/article?cmd=show&type=NOT&id=1400676.1> (MOS Doc ID 14006761).

<sup>5</sup>For Oracle Solaris 8, a limited service providing Severity 1 fixes will be available after July 2012. For details please refer to the [Oracle Hardware and Systems Support Policies](#).

<sup>6</sup>Solaris 11.0, 11.1, 11.2 fixes are delivered in the form of the updates available in the most recent versions of Solaris 11. Solaris 11 updates are provided through Support Repository Updates (SRU), or through Limited Support Updates (LSU) for Solaris 11.3 after Aug/2018. Users may be required to update to a newer SRU or LSU to obtain fixes for issues in systems covered by Premier Support or apply an Interim Diagnostic or Relief (IDR) update. For systems covered by Extended Support, fixes may be provided through IDR updates and/or LSUs.

<sup>7</sup>Solaris 11.4 follows a Continuous Delivery model, where new functionality is delivered as updates to the existing release; upgrades are not required to gain access to new features and capabilities. As a result, Support dates are evaluated for update annually, and will be provided through at least the dates above.
